Hi everyone!

I crack software, make keygens...

Important: unlike other's solutions, mine are not fixed to a single computer! Use as many copies, as you want.

Here you can read about my latest work.

2 Kodak Evo 10 (2024-Apr-27)

Another bug fixed, sorry!

3 Kodak InSite 9.5 (2023-Nov)

Ready.

4 New website (2023-Feb)

Now I migrated to Tor/onion. (So called “darknet”.) This is all for my (and your) privacy.

To access my website, download Tor browser: https://www.torproject.org/download/.

And use my new URL:

http://3ewzhvgicom7jophqtdoo3heq6baniexdxl4pbwl5yjwxyte36eib6yd.onion

To save my new URL, just save this PDF file you’re currently reading to some safe place.

5 Contact me

No email anymore. Please use this form:

http://3ewzhvgicom7jophqtdoo3heq6baniexdxl4pbwl5yjwxyte36eib6yd.onion/contact.html

6 Agfa Apogee and Esko

Finally, I start working on Agfa Apogee and Esko.

Can anyone help me please? Can anyone share all the latest version(s) with sample license keys? (Sample license key can be expired, old, this is OK.)

Also, what Agfa Apogee version would you use? Which you can pay for?

7 Kodak DFL, OD Service Tools, etc

I know about it. But I need someone to help me with. To install it all in a virtual machine.

Download VirtualBox or VMWare WS. Install all the files in it and share VM with me please.

Also, the problem is that I don’t have a machine to connect to. Can anyone help me?

8 inpho/Trimble Photogrammetry + UAS-Master 13.x

Ready for testing.

9 FujiFilm XMF 6.12

Licences
Installation components are automatically detected from the licences. The licences list to the right displays all currently installed licences. Checking the box next to a valid licence indicates whether it is to be used to build the list of available components. Note that for Slave installations it is still necessary to enter licences.
Next Step
Enter each licence then click Add. Multiple licences can be copied in a single step if required. If a licence is not available it can be added after the installation via the Licence Tool. Once complete click Next. To change any previous steps click Back

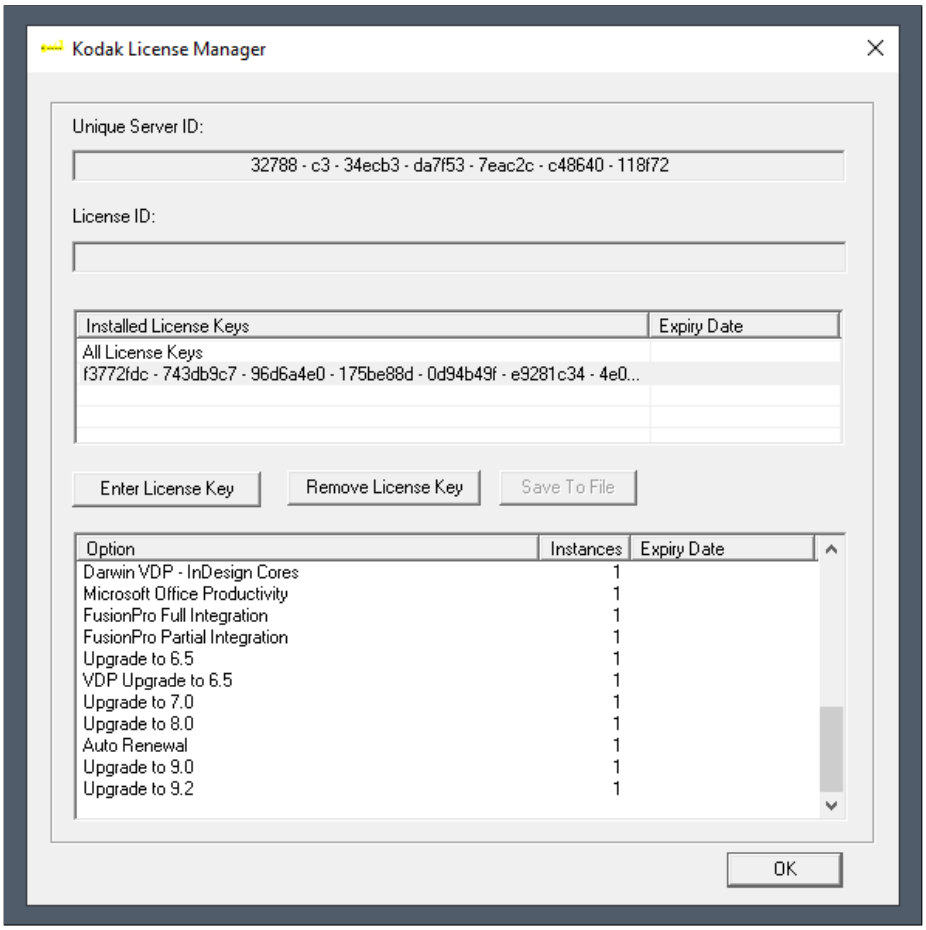
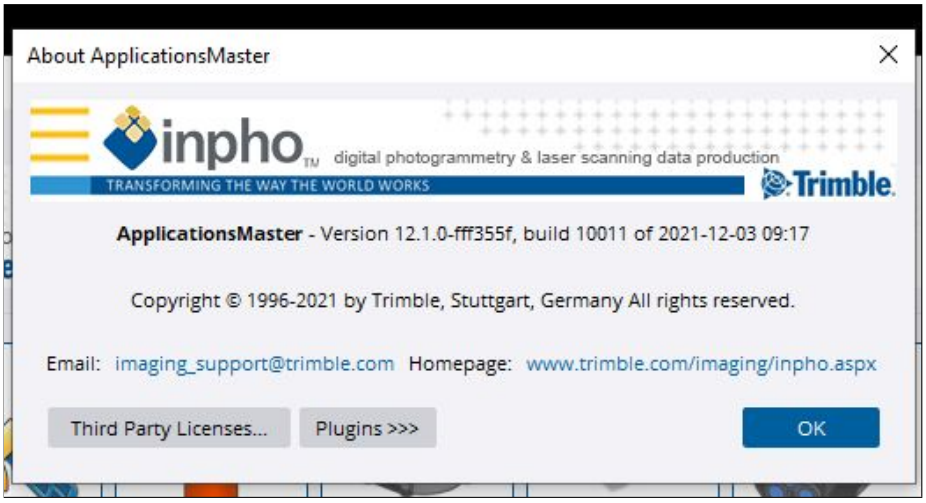
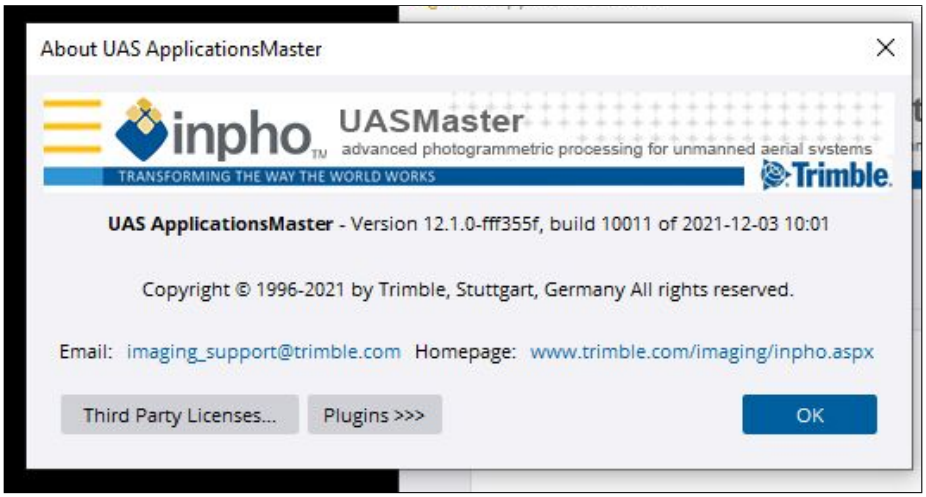
10 Kodak InSite 9.2



Demo keygen: http://3ewzhvgicom7jophqtdoo3heq6baniexdxl4pbwl5yjwxyte36eib6yd.onion/tmp/prinergy_demo_dec_2021.rar

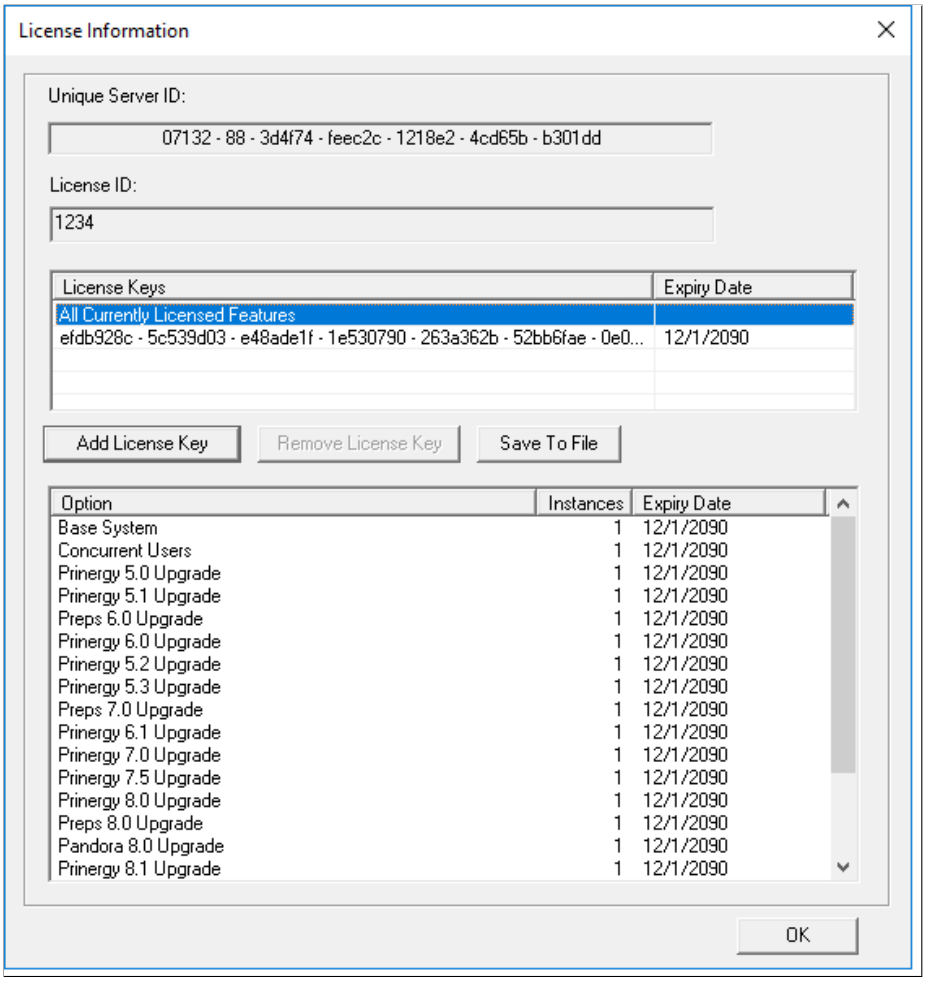
11 inpho/Trimble Photogrammetry + UAS-Master 12.x





12 Kodak Connect 9.0.2

My keygen and my ’unlimited’ patches are updated.



13 X-Rite ColorCert 4.2.5

To solve it, I need an access to a computer with X-Rite ColorCert 4.2.5 installed AND activated. To get additional info.

14 Kodak Prinergy news

Good news, everyone! Connect 8.4 accept licenses that are longer than 1 month, but no longer that 12 months (1 year). Here is a demo keygen that can generate licenses until 1-jan-2022, you can test it: http://3ewzhvgicom7jophqtdoo3heq6baniexdxl4pbwl5yjwxyte36eib6yd.onion/tmp/kodak_demo_oct_2021_v4.rar

Connect 9 has this peculiarity as well.

I can patch Connect 8.4 and 9 so that it will accept unlimited licenses, if you are interested.

I managed to install Connect 9.0.1 finally. These are installation files that are works in Windows Server 2016:

https://kodak.wasabi.snxd.com/ssn-kodak/rnt/Prinergy_9.0.1.BLD125.exe
https://kodak.wasabi.snxd.com/ssn-kodak/rnt/Prinergy_9.0.1.BLD125.part2.zip
http://download2.kodak.com/rnt/Oracle_19.0.0_x64.zip

Prinergy Connect/Evo can accept permanent licenses only up to versions 8.0.x (inclusive). Versions 8.1.x and after - only temporary licenses no longer than for 1 month. But you can regenerate your license each month using my keygen(s). If you think I'm wrong, please show me a permanent license for Connect/Evo for 8.1.x or newer, so I could 'copy' it.

Prinergy Connect 8.1.2 can print error "-1702" if permanent license is to be added.

But... if Prinergy Evo/Connect patched, it can accept license keys that has expiration date up to year 2120:

Patcher is for sale. A demo patcher (that extends Evo 8.2 and Connect 8.3 to '3 months') available here: http://3ewzhvgicom7jophqtdoo3heq6baniexdxl4pbwl5y onion/tmp/kodak_demo_oct_2021_v4.rar

---

Can anyone send me a list of features you use for Evo 8.2? I need this to get better understanding, which features users use.

15 A bug found in my Kodak Prinergy keygen...

When it displayed the following message:

```
"The license will expire after ... days"
"And this is longer than 1 month."
"The license key will be generated anyway, but Evo/Connect may not work..."
"Please set shorter period (>30 days)"
"To fix this problem, I need at least one permanent license key (steven@bitwixen.com)."
```

... it generated incorrect license and crash.

However, such a license wouldn't be accepted by Prinergy anyway...

Prinergy didn't accept that keys, printing the

```
"License Key and Dongle ID mismatch.
The License Key entered is not valid for this server's Dongle ID."
```

dialog box.

New fixed keygen would be interested to those who want to patch Prinergy...
